

The best way to accept payments with an **all-in-one device.**

SwipeSimple Terminal on the PAX A80 brings best-in-class software to a familiar form factor.

All the capabilities of a traditional terminal:

- EMV chip, contactless, and magnetic stripe
- Rugged, compact form factor
- Wired and wireless connectivity
- Built-in receipt printer

Plus the power of SwipeSimple:

- Easy-to-use interface with advanced features
- Item catalog and inventory management
- Cloud-based transaction history and reporting

Meet the payment terminal designed for the 21st-century

SwipeSimple Terminal on the PAX A80 is a great fit for small business merchants looking for a modern, easy-to-use payment solution, including salons and spas, automotive service and repair shops, medical offices, and specialty food stores.
